

# Will Legislators give us what we asked for?

*We don't want any more CDC Guidelines.  
And, we have had it with "safe and effective"!*

**In 2024 we have choices!**

## SB412 Would Require:

- That a child seeking a medical exemption for a vaccination must submit a certification from a **physician licensed in West Virginia**, to a **State Immunization Officer** who is appointed by **"the commissioner"**;
- That the Immunization Officer's decision may be appealed to an **Immunization Appeals Oversight Board (created by SB412)**;
- That the decisions of the State Immunization Officer are subject to review by the **State Health Officer** who may determine that a number (5 in a 2-year period) of approved exemptions are incongruent with "medical evidence" in which case he will be subject to discipline;
- That criteria for a medical exemption be based upon current guidelines by the Center for Disease Control and Prevention;
- That the Immunization Appeals Oversight Board consist of physicians appointed by the deans of the three medical schools within the state;
- That members of the Immunization Appeals Board are immune from suit and liability and are not subject to subpoena;
- That there are detailed rules laid out for these processes;
- That all of the above will be paid for by you, the taxpayer.

Several health freedom bills have been introduced. <https://www.wvlegislature.gov/> Register your choice!

	eliminate mandate	allow exempt	report adverse	informed consent	covid	special issues	
257	x						Vaccines cannot be mandated by any state or local governmental official, entity, department, or agency
279			x				Medical professionals and individuals must report injuries and side effects to a <i>public</i> database. [?? Also adds unrelated §16-1-6-(a)14.]
520				x			Require informed consent; prohibit activities e.g. accepting incentives for vaccinating; includes consequences.
4192		x					Exemption for religious, conscientious or personal objection to the mandated immunization.
4348		x				x	Permits those who have obtained natural immunity shall be classified as fully vaccinated
4401			x				Medical professionals and individuals must report injuries and side effects to a <i>public</i> database. [Similar to 279, without the unrelated §16-1-6-(a)14.]
4403	x						No childhood mandates; parents' discretion.
4439					x		Covid vaccine cannot be required for college admission.
4585					x	x	Covid vaccine not required for respite providers.
5105						x	Vaccine not required for public <i>virtual</i> school.
5143		x					Religious or ideological exemption <i>except for</i> measles, polio and tuberculosis
5142		x					Exemption for religious, conscientious or personal objection to the mandated immunization.
5144	x						Prohibit vaccine requirement for public school.
5145						x	Remove Hepatitis -B requirement.
5206						x	Choosing not to vaccinate is not child abuse.
5211	x						Parental discretion; employee discretion; masks cannot be required at schools.
5249						x	Prohibit vaccine mandate for parochial, charter, virtual, remote - everything but public school.

**Senator Tom Takubo**  
is employed by *WVU Health System*  
as its executive vice president of  
provider relations.

He works for them, not for us!  
Let's fire him from the legislature.

Several legislators have signed the  
**Medical Liberty Pledge.**

"I hereby pledge that as an elected official I will oppose any government action and repeal/veto any law that would coerce or require any American to acquiesce to a medical product or procedure." <https://mlpledge.org/>  
Please—No Excuses!
